## EDUCATION

**University of Waterloo** **Waterloo, ON**
*Bachelor of Computer Science* cGPA: **94.6%** *September 2025 - Present*
- Transferred schools after second year

**University of New Brunswick** **Fredericton, NB**
*Bachelor of Computer Science* cGPA: **4.3 / 4.3** *September 2023 - July 2025*
- Recognized as top **1/˜200** first year CS students at UNB with the **Computer Science Prize** in 2023

## PROFESSIONAL EXPERIENCE

**Populus Global Solutions** **Fredericton, NB**
*Junior Software Developer* *September 2024–December 2024*
*Angular | TypeScript | Java | JUnit | PostgresSQL | HTML | Log4J2*
- Wrote migration scripts for **10+ years** worth of old client data in a PostgresSQL database
- Updated application logging using **Log4J2** to divide up **1000s** of logs into different files based on topic
- Created **JUnit** tests for **˜10** new features
- QA tested and reviewed code and features from **˜10** team members
- Worked as part of an agile development team, organized with JIRA

**University of Waterloo** **Waterloo, ON**
*Research Assistant* *May 2026–December 2026*
*Java | Neo4j | Cypher | APOC | Python*
- Worked with **Dr. Joanne Atlee** on her research
- Analyzed codebases based on client specification
- Updated workflow to improve **accuracy** and **efficiency**

## PROJECTS

InfoDrft
*Next.js | Supabase | NewsAPI.org | OpenAI API | TypeScript | Vercel | Cursor AI*
- A full-stack web-app built with **Next.js** which pools together articles based on the user's interests
- Makes use of a **PostgresSQL** database hosted on **Supabase**
- Used **NewsAPI.org** to search through **1000000+** articles for those best suited to the user
- Articles are then passed to **OpenAI API** which provides a brief summary of each article for the user

Custom Patient Questionnaire
*Next.js | Mailgun API | Google Drive API | TypeScript | Vercel | Cursor AI | HTML | CSS*
- A custom form built with **Next.js** to replace a real medical office's paper form
- Data is formatted and sent securely by email using **Mailgun API** to the office
- Data is also written directly to the doctor's google drive with **Google Drive API** for use

Personal Website
*Next.js | React | Tailwind CSS | Vercel | Cursor AI*
- A personal website made to display my accomplishments, built with **React and Tailwind CSS**
- Used **Cursor AI** to maximize efficiency and build the website from scratch very quickly

## LANGUAGES

**Languages**: Java, C, JavaScript, C++, TypeScript, HTML, SQL, Python, CSS, Neo4j, Cypher

**Frameworks/Tools**: React, Angular, Node, Git, Agile, Log4J2, OpenAI API, Cursor AI, Supabase, Vercel

## ACCOMPLISHMENTS

- Received Governor General's Medal for highest academic average **(1/˜500)** from FHS class of 2023
- Received **Duke of Edinburgh Silver Award**
- Achieved **Senior Black Belt** level in Karate (2023)
